PROFESSIONAL PROFILE

Health marketing and growth leader (MPH in Health Education & Promotion, CHES®) with 16+ years building and scaling commercial functions across healthcare, fintech, e-commerce and consumer technology. I build brands, launch products and engineer growth across acquisition, retention and the full funnel — powered by audience insight, data (ARPU, CLV, cohorting) and behavioral science. At Praava Health I owned the consumer business contributing 83% of revenue, built corporate sales from zero (342 → ~1,400 clients) and drove ~57% B2C CAGR; at Samsung I led a globally #1-ranked flagship launch. I pair marketing craft with the science of behavior to grow health businesses and outcomes.

SIGNATURE GROWTH CASE STUDIES

Structured as Challenge → Insight → Execution → Result.

Healthcare Growth — Praava Health

► Directing multi-year hypergrowth

- **Challenge:** A single-hub brand over-associated with COVID needed durable, hard-to-scale non-COVID growth, with the consumer portfolio carrying 83% of revenue.
- **Insight:** Durable growth comes from three compounding engines: new products, data-driven decisions and automated growth loops.
- **Execution:** Launched 100+ market-first products via fast GTMs; ran every decision on ARPU, CLV and cohorting; built automated reminders, re-outreach and ad loops.
- **Result:** 40/20/87% yearly growth — ~45% overall and ~57% B2C CAGR (2021–23).

- **Result:** 342 → ~1,400 clients (4×) and 3.1× corporate health programs.
