MBA · MCIM · MPH · CHES®

Digital Health Product · Product Strategy · Growth & Adoption · Healthcare + Technology
Redford, Michigan | shafaatalichoyon@gmail.com | (734) 219-1480 | [linkedin.com/in/sacgrowthspecialist](https://www.linkedin.com/in/sacgrowthspecialist)

Digital-health product and growth leader (MPH, CHES®) with 16+ years launching and scaling products across healthcare, fintech, e-commerce and consumer tech. I sense unmet demand, define and launch products, drive adoption with data and behavioral design, and run cross-functional teams (product, BI/Data, engineering-adjacent, GTM). This portfolio presents selected work as Challenge → Insight → Execution → Result.

IMPACT AT A GLANCE

100+ digital-health products built	57% CAGR B2C product growth (Praava)	Ghore Lab home-diagnostics launch
6-hour traveler-testing product	~2,600/day Samsung product volume	\$1M / month digital platform in 7 mo
10 million fintech product users	#1 in 2.5 mo marketplace category built	MPH · CHES® health domain + behavioral science

SELECTED WORK — AT A GLANCE

Digital Health Products — Praava product portfolio (100+, Ghore Lab); data-driven product decisions (57% B2C CAGR); telehealth launch & adoption (+190%); first-in-country traveler-testing service (6-hour, gov-portal); distribution innovation (Lifebuoy closed loop); clinical-ops digitization (Laser Treat ERP/BI).

Digital Products at Scale — Samsung product planning & national e-commerce platform; SureCash fintech at 10M users; Ekhanei online-marketplace product & real-time QA.

Full profile, case detail, recommendations and publications follow.

PROFESSIONAL PROFILE

Digital-health product and growth leader (MPH in Health Education & Promotion, CHES®) with 16+ years launching and scaling products across healthcare, fintech, e-commerce and consumer technology. I identify unmet demand, define and launch products, drive adoption through data and behavioral design, and lead cross-functional teams spanning product, business intelligence/data, engineering-adjacent and go-to-market. At Praava Health I built a 100+ product digital-health portfolio (home diagnostics, telehealth, traveler products) and a data engine (ARPU, CLV, cohorting) that powered ~57% B2C CAGR; at Samsung I led product planning and launched a national e-commerce platform. I pair commercial discipline with behavioral science to turn health products into adopted, measurable outcomes.

CORE COMPETENCIES

Product Strategy & Launch — Product discovery & demand sensing · Roadmapping & prioritization · Go-to-market · Pricing & packaging · Launch management · Digital health (telehealth, diagnostics, e-commerce, MFS)

Data, Analytics & Experimentation — Product metrics (ARPU, CLV, retention, cohorting) · A/B & message testing · Funnel & adoption analysis · BI dashboards · Data-informed prioritization

Adoption, Behavioral Design & Cross-functional Delivery — Patient/user adoption · Behavior-change & trust design · Cross-functional leadership (product, data, engineering-adjacent, marketing) · Partnerships · Digital transformation & change management

SIGNATURE PRODUCT CASE STUDIES

Structured as Challenge → Insight → Execution → Result, to show the product reasoning behind each outcome.

Digital Health Products

► Praava Health — building a 100+ product digital-health portfolio

- **Challenge:** A single-hub healthcare brand needed new revenue from products customers actually wanted — fast — beyond its COVID-testing core.
- **Insight:** Continuously sense unmet demand and ship products new to the company and the market, then market them with speedy go-to-market.
- **Execution:** Built a product & product-marketing function that researched demand and launched market-first digital-health products — Ghore Lab (at-home diagnostics), Vitamin-D packages, traveler-specific products — with rapid GTM cycles.
- **Result:** 100+ products and growth loops that repeatedly seeded the top line and gave competitors products to copy.

Fast

GTM cycles

► Praava Health — a data engine for product decisions

- **Challenge:** Grow a hard-to-scale core with disciplined, evidence-based product decisions, not intuition.
- **Insight:** Treat data as a product capability: keep analytics inside the product/marketing org and decide on real metrics.
- **Execution:** Ran every product decision on ARPU, CLV, cohorting and retention (65–70% of weekly meetings on data); built automated reminders, re-outreach and ad loops so revenue recurs.
- **Result:** ~45% overall and ~57% B2C CAGR (2021–23) — product prioritization driven by metrics, not opinion.

► Praava Health — launching and scaling a telehealth product

- **Challenge:** Convert awareness into adoption (first clinic and virtual visits), affordably, at national scale.
- **Insight:** 64% of patient lifetime value is captured in the first three visits — so the product had to win the first visit.
- **Execution:** Launched a low-ticket Resident Physician video-consult product (Tk 275, down from Tk 1,000), paired with door-to-door and home sample collection and Free Consultation Days across multiple channels.
- **Result:** About +190% clinic footfall and a measurable top-of-funnel adoption lift.

► Praava Health — a first-in-country traveler-testing digital service

- **Challenge:** US-bound travelers needed certified tests within a narrow pre-departure window, during lockdowns.
- **Execution:** Designed a productized service: a dedicated lab batch with four daily slots, 6-hour result turnaround, and automated result upload to the government travel portal.
- **Result:** Captured essentially all Bangladesh-to-US travelers — a one-of-a-kind digital-enabled service in the market.

► Praava Health — distribution innovation & partnerships (Lifebuoy)

- **Challenge:** Distribute a primary-care product nationwide, affordably, beyond a single hub.
- **Execution:** Embedded the access point in a daily consumer product (a health hotline on Lifebuoy soap) and built a closed clinical loop — teleconsult (~3,000 calls/day) → referral or lab booth → report → doctor callback — with government data-sharing.
- **Result:** Population-scale distribution through a partnership channel, plus a public-health data contribution.

~3,000/day

teleconsults

Nationwide

Closed loop

Rx → lab → callback

► Laser Treat Group — clinical-operations digitization

- **Challenge:** A multi-entity clinical group needed reliable operations, data and patient experience.
- **Execution:** Implemented a centralized ERP (supply chain, inventory, clinical resources); digitized patient records, BI dashboards, HR and CX logs; introduced CSAT/NPS measurement.
- **Result:** +13% patient retention, reduced delays and improved decision accuracy; a \$0.5M opex reduction reinvested in care.

Digital Products at Scale

► Samsung — product planning, GTM & a national e-commerce platform

- **Challenge:** Plan, position and launch flagship and entry-segment devices, and build an online channel that did not exist.
- **Execution:** Led portfolio planning, pricing and go-to-market (entry-segment J2 at ~2,600 units/day; the Note9 flagship launch); partnered with the national distributor to design and launch an e-commerce platform plus online-specific SKUs; created a loyalty program with Samsung's R&D institute.
- **Result:** Note9 recognized No. 1 globally for growth (1.54× YoY); an entirely new e-commerce commercial channel.

e-commerce platform

► SureCash — a fintech product at population scale

- **Challenge:** Operate a multi-bank mobile-financial-services platform and reach 10 million users, including a rural, low-literacy base.

- **Execution:** Ran a population-scale product rollout (government stipend disbursement) using residence-mapped placement, automated voice-call (IVR) onboarding and rural activations; merged digital and call-center teams for real-time support.
- **Result:** ~10 million users reached; the fastest-responding MFS brand on social; Banking Fair Award of Excellence.

► Ekhanei.com — an online-marketplace product with real-time quality systems

- **Challenge:** Build a trusted marketplace category in a market that distrusted online second-hand transactions.
- **Execution:** Built the vehicle category with a ~60-person operation, a live audit-call reconciliation loop tying every listing to an accountable owner, and a semi-pro seller key-account program; wrote and aired category TV creative.
- **Result:** #1 motorbike category in 2.5 months and the country's largest motorbike-ad inventory; +25% category revenue.

PROFESSIONAL EXPERIENCE

Head of Marketing & Corporate Sales (Head of Consumer Business) — Praava Health

Dhaka, Bangladesh · Jun 2021 – Oct 2023

- Built a 100+ product digital-health portfolio (home diagnostics, telehealth, traveler products) and the product/BI/Data org behind it; ran decisions on ARPU, CLV, cohorting and retention; drove ~57% B2C CAGR; grew preventive care 24% YoY and diagnostics utilization 34% YoY; launched the Ghore Lab home-diagnostics product and a first-in-country traveler-testing service.

Chief Operating Officer — Laser Treat Group (Clinical Dermatology & Wellness)

Dhaka, Bangladesh · Nov 2023 – Aug 2024

- Implemented a centralized ERP and digitized patient records, BI dashboards and CX logs; introduced CSAT/NPS measurement (+13% retention); cut operating expenses by \$0.5M.

Manager, Product Planning — Samsung India Electronics Ltd (Bangladesh)

Dhaka, Bangladesh · Sep 2017 – Dec 2018 · Q3'18 Business Performer

- Owned portfolio planning, pricing, positioning and GTM for flagship and mid/high segments; led the No. 1-globally Note9 launch and entry-segment J2 (~2,600/day); designed and launched a national-distributor e-commerce platform and a market-first loyalty program.

Marketing Manager — SureCash (Mobile Financial Services)

Dhaka, Bangladesh · Jun 2015 – Oct 2016

- Led a population-scale fintech product rollout reaching ~10 million users (residence-mapped placement, IVR onboarding, rural activations); built the in-house product/creative team and merged digital with the call center for real-time support.

Brand & Vehicle Category Lead — Ekhanei.com (SnT Bangladesh)

Dhaka, Bangladesh · Oct 2016 – Sep 2017

- Built an online-marketplace category to #1 in 2.5 months with a live audit-call quality-control loop and a semi-pro seller key-account program; the country's largest motorbike-ad inventory.

Senior Executive, Strategic Planning — Asiatic (Bangladesh JWT) / Asiatic Digital

Dhaka, Bangladesh · Dec 2013 – May 2015

- Built a multi-channel digital practice to ~\$1M monthly revenue in seven months; grew brand audiences from zero (Mirinda past 100,000 fans) across Facebook, YouTube and the Google Display Network.

Health domain & public-health work — Eastern Michigan University (MPH, CHES®)

Ypsilanti, MI · 2024 – 2026

- Graduate Assistant (Office of Health Promotion) and MPH candidate; designed evidence-based, evaluated health campaigns and authored 13 published digital-health and health-policy articles — grounding product work in behavioral science and the patient perspective.

SELECTED RECOMMENDATIONS (LINKEDIN)

"Knows how to sell anything and everything — 'ridiculously efficient' at product planning and launching, with profound skills in online marketing and strong boardroom presentation skills. I could have learned a lot from this powerhouse."

— **Fazlul Musawwir Choudhury** — Product & Portfolio Management, Ex-Samsung (Samsung Product Planning team), 2019

"Choyon is a sharp and amicable project manager you can rely on. I worked with him on the My Galaxy project and discovered his business acumen to make a project, campaign or product successful; I got his utmost support whenever I needed the business or customer perspective."

— **Md. Marufur Rahman** — Staff Engineer, Samsung Electronics (R&D Institute), 2019

"I quickly identified him as a strong change agent, and during the implementation he proved to be instrumental in executing the new strategy. Choyon's strengths are in planning, execution, partnerships and project management, in addition to being a seasoned marketer and brand specialist."

— **Eivind Skibenes** — COO at Plick (managed Shafaat at Ekhanei), 2017

"He took over the brand at an important inflection point and delivered significant growth, executing on a complex strategy in very difficult operating circumstances. I trust Shafaat and would work with him again any minute."

— **Kat Wendelstadt** — Founder & CMO (Shafaat's line manager at Praava), 2022
